

LPD Functional Responsibilities

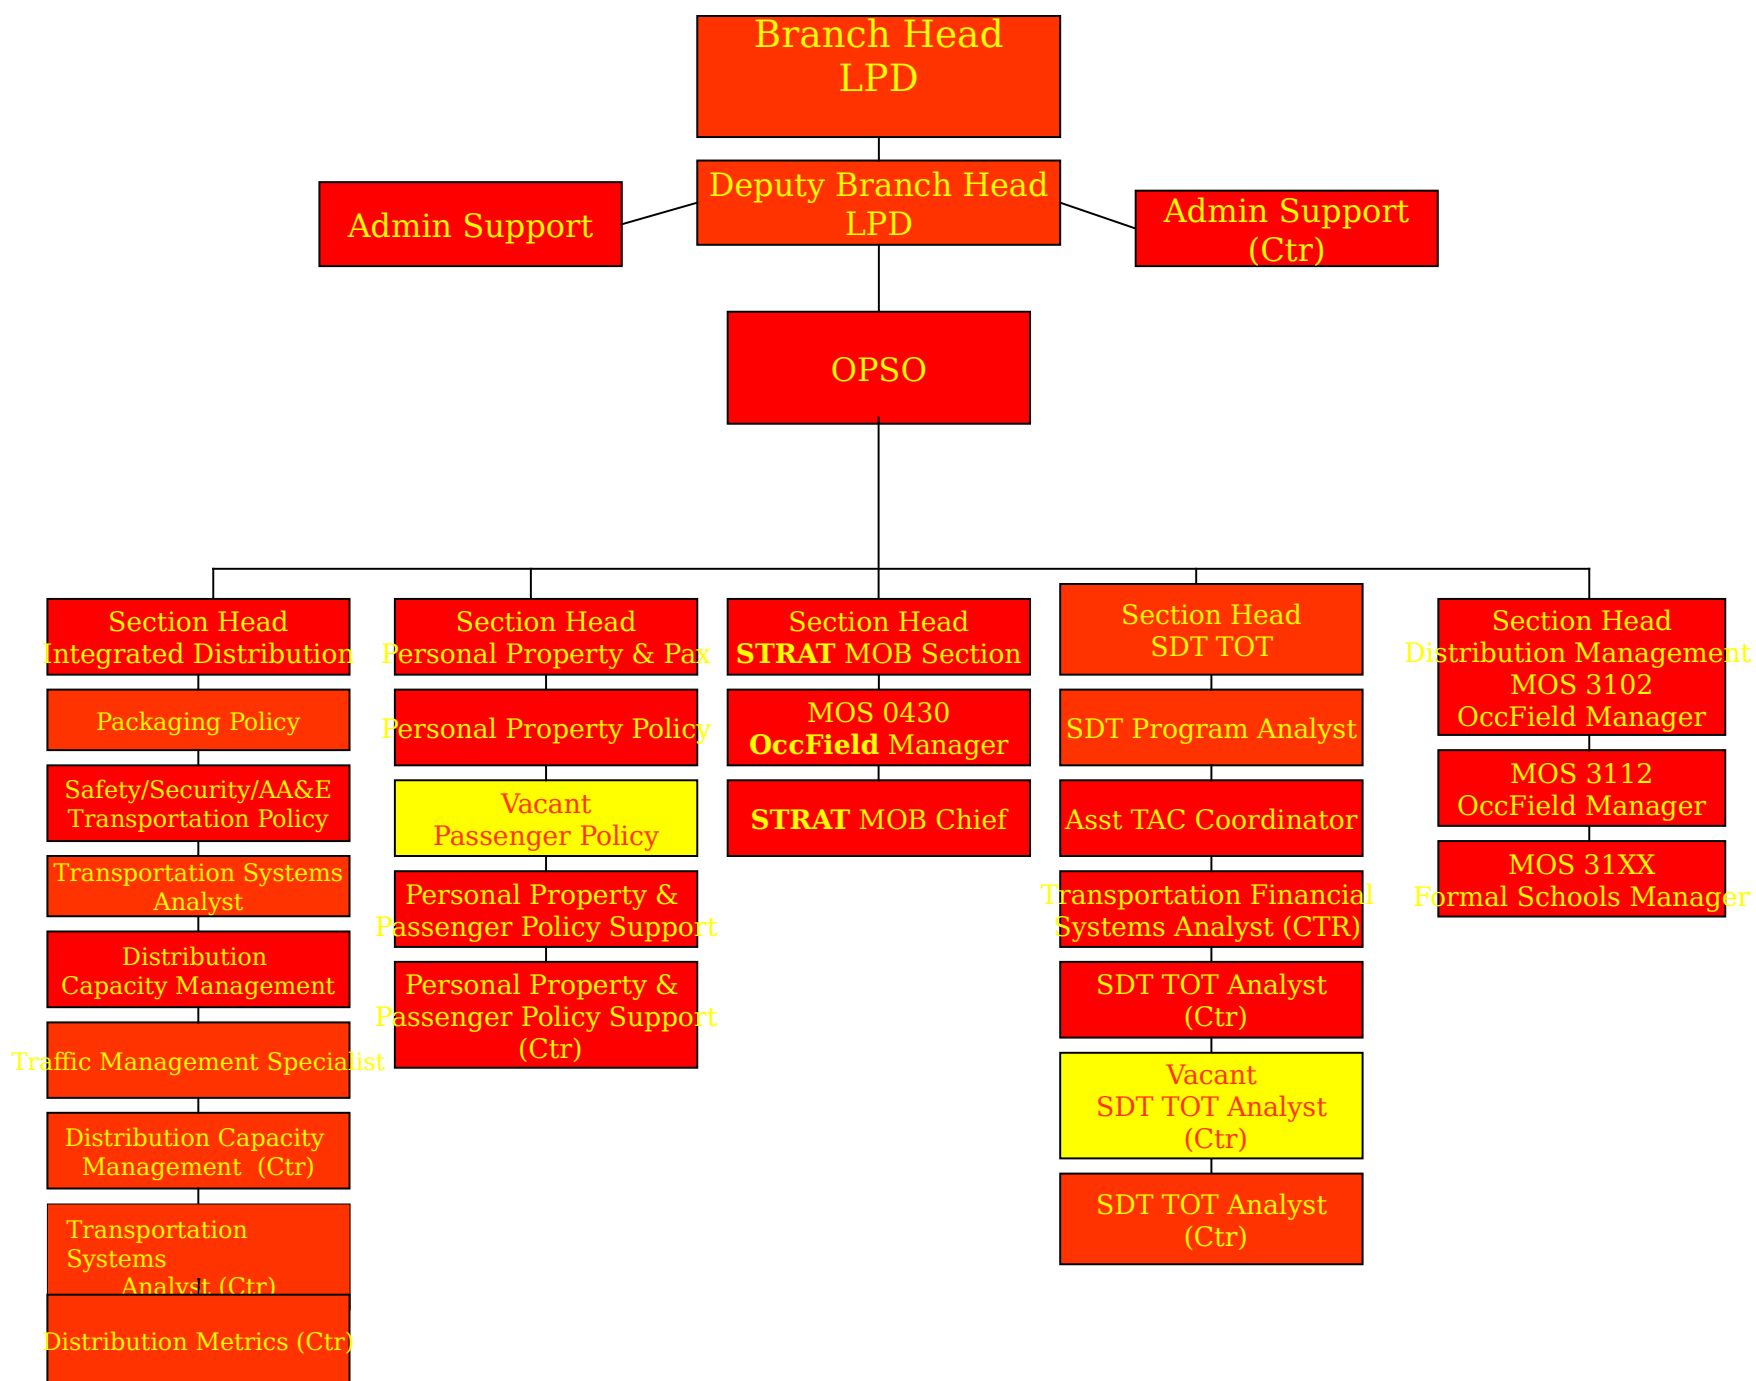

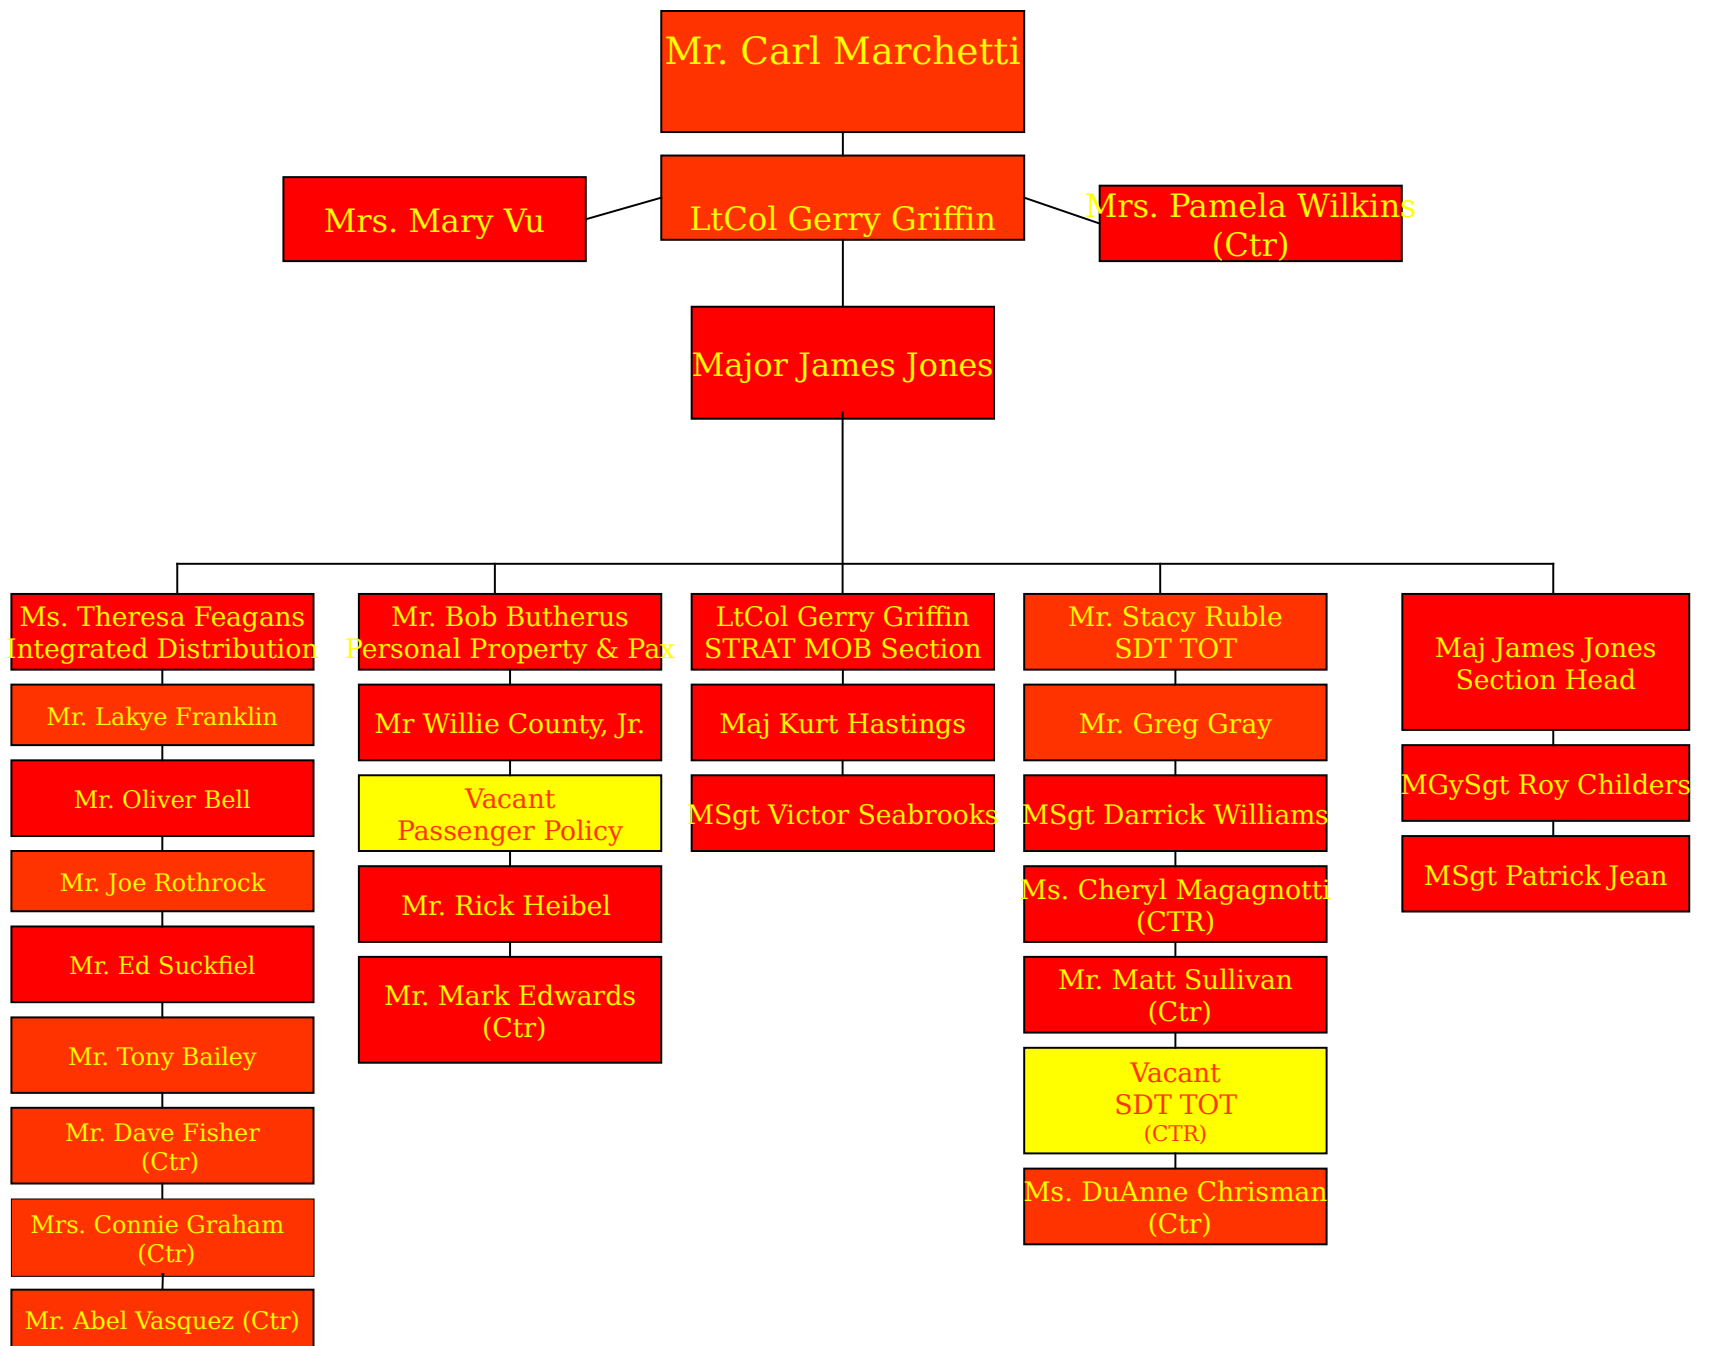

SMO CONFERENCE
MAY 20, 2008

*Mr. Carl Marchetti
Branch Head, LPD*

Installations and Logistics Department

LOGISTICS DISTRIBUTION POLICY BRANCH (LPD)

- Responsible for functional area advocacy, operational oversight, and distribution policy development and guidance.
- Responsibilities include coordination and dissemination roles for USMC and Joint policy and procedural requirements for sustainment distribution including freight and logistics chain interfaces; household goods, passenger travel; Second Destination Transportation funding; **unit movement** and packaging, packing and preservation.

INTEGRATED DISTRIBUTION SECTION (LPD-1)

- Provides USMC distribution management policy and guidance for the movement of freight worldwide.
- Serves as the focal point in developing more efficient methods of transporting, routing, tracing and documenting USMC freight movements within the Defense Transportation System.
- Responsible for transportation policy regarding the movement of Arms, Ammunition and Explosives (AA&E) shipments; container leasing/purchasing policy, customs and border clearance issues; preservation, packaging and packing (P3) issues and distribution management Automated Information Systems (AIS).

PERSONAL PROPERTY AND PASSENGER SECTION (LPD-2)

- Develops distribution management policy and programs for the movement of passengers and the movement and storage of household goods. 
- Provides guidance to Marine Corps Distribution Managers and Service members on household goods and passenger transportation issues.
- Develops USMC policy and procedures for the implementation of Joint Federal Travel Regulations (JFTR). 

STRATEGIC MOBILITY SECTION (LPD-3)

- Serves as the focal point for strategic mobility (strategic sealift and airlift) policy, embarkation policy and wartime transportation planning.
- Provides service level functional oversight of the unit move logistics domain portfolio (Marine Air Ground Task Force (MAGTF) Development Support System II and Joint transportation systems (Automated Air Loading Planning System and Integrated Computerized Development System)).
- Provides Marine Corps' input to Joint Strategic Mobility reviews and initiatives.
- Validates data for the MAGTF Data Library and supports the embarkation portion of HQMC Inspector General inspection team visits.

SECOND DESTINATION TRANSPORTATION (SDT) SECTION (LPD-4)

- Supports Marine Forces in funding the movement of USMC owned equipment and material worldwide.

- Responsible for all SDT funding issues to include budget submission and execution, assignment of Transportation Account Codes,
air clearance authority issues, and commercial carrier freight payment processes through PowerTrack.

DISTRIBUTION MANAGEMENT SECTION (LPD-5)

- Serves as the focal point for distribution management training, formal school quotas and funding, MOS 31XX grade structure reviews, PCS slates, officer and enlisted promotion matters, and other occupational field concerns.
- Assist in the resolution of distribution management queries raised from the field Distribution Management Offices which may require HQMC level influences and capabilities.
- Responsible for functional oversight of the Marine Air Ground Task Force (MAGTF) Deployment and Distribution Policy (MDDP) and other sustainment distribution issues raised by the operating forces.
- Supports the Distribution Management portion of the HQMC Inspector General inspection team visits, as required.
